Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Objections to the drawings were discussed and the Examiner made some suggestions about how to change the specification to make the drawings clear. Applicant asserted that there is no "air bearing" in the Steere, Jr. reference. The applicant also asserted that a grinding wheel did not satisfy the limitation of a saw. The Examiner listened to the assertions and will respond to such assertions in an Office action after the assertions are presented in a formal written response.
